THE GRASS FENCE

1 roll; 4 ft H 32 ft W
1 roll; 5 ft H 32 ft W
1 roll; 6 ft H 32 ft W

Our Services

Decorative lawn fence with special dimensions for decorative and outdoor purposes. These fences look like natural grass and are very useful for wide and natural landscapes. It gives the natural appearance without the maintenance of real grass. These fences are easy to clean and maintain, which makes it suitable for all weather conditions.

Grass metal fences are made from a special PVC. It allows for UV protection and the grass fence is made of many processed galvanized stainless steel wires. The grass itself does not burn as well. Mesh grass wire offers a more aesthetic appearance in addition to providing more privacy and security. It is the braided wires which serves the security purpose and provides safety for the customer.

This natural grass perception serves for many different places such as sports fields playgrounds, terraces, gardens, around the pool, caterias, restaurants in garden areas landscape fields, villas, road sides, walls, coatings and facades. This product can be used in other many areas as it serves as a decorative element and can be very useful in the service segment.
